Preventing & Responding to Child Identity Theft

Children's identities are especially attractive to identity thieves because, often, the theft remains undetected for years. This presentation advises parents and guardians on how to protect your child from identity theft and the steps to take if your child becomes a victim.

Join us this Thursday for a virtual presentation where we share valuable information on how to prevent and respond to Child Identity Theft.

What we'll cover:

- The warning signs of Child ID Theft
- Resources available for parents to prevent and resolve Child ID Theft

Presented by the NYS Department of State's Division of Consumer Protection. The Division of Consumer Protection is committed to assisting, protecting, educating, and empowering New York consumers.

Thursday, January 4th, 2023

6:30 PM

Presented by:

Rohan Narine, MPA

Consumer Education Liaison, DCP
