ECI EARLY COLLEGE INITIATIVE AT CUNY

NYC Department of Education

OUR MISSION

Business Technology Early College High School (BTECH) believes for students to succeed professionally and academically they need an education based on *technology*, *innovation*, *thinking*, *problem solving* and one that *builds character*.

In collaboration with Queensborough Community College and as a CTE school, we help prepare students to re-imagine the future in business and technology.

- **BTECH** is a safe and *intellectually challenging* student-centered learning community

- **BTECH** offers a *dynamic* and innovative *early college program* where students have the opportunity to earn college credits and an *Associates degree*.

Why BTECH?

- 🎯 **Purpose-Driven Pathways**
  Students explore careers in business and technology through hands-on learning that connects to their passions.
- 🧠 **Real-World Learning**
  From college courses to industry certifications, students build skills that matter in school and beyond.
- 💬 **Student Voice & Leadership**
  Whether presenting projects, leading clubs, or speaking at events, students are empowered to lead and advocate.
- 🤝 **Supportive Community**
  Teachers, counselors, and peers work together to ensure every student feels seen, challenged, and supported.

What makes us different?

We don't just teach. We launch.

- 1 of only 14 , 9-14 model Early College Initiative High Schools. A rare model that blends high school, college, and career preparation.
- Only High School to offer a pathway from QCC to Zicklin School of Business at Baruch
- Associate Degree Offerings in **Business & Internet and Information Technology**
- Opportunity to earn up to 35 college credits by the end of the 12th grade
- NYS Approved Career Technical Education (CTE)
