

Dear CEC 28,

Thank you for your resolution advocating for more specialized high school seats in Queens, and particularly for your suggestion about using the space in building Q497 for this purpose.

This summer, we have worked alongside the Office of District Planning to support engagement around planning for high school seats in Queens, particularly how to use Q497 and space planning for Queens High School for the Sciences.

We will be reaching out shortly to include your CEC in those discussions.

Thanks,

Katie Jedrlnic

Senior Executive Director, Office of Policy and Advocacy
